

Academic Achievement

A Catholic education is a challenging education. High standards, strong motivation, effective discipline and an atmosphere of caring combine to foster excellence, and, a high quality of student performance is supported by the evidence.

- Catholic School students score significantly above the national averages on standardized testing.
- Research shows that because of a greater emphasis on homework and study, Catholic School students develop more effective writing skills.
- Catholic Schools have an excellent success rate in educating minority students.

While providing a stimulating and demanding education, Catholic Schools give students a high level of individualized attention and personal sharing.

Continuing Education

Students will have the opportunity to visit the Syracuse Diocesan Junior-Senior High Prep Schools. Fifth and Sixth graders can sign up to "shadow" a seventh grader at each of these schools to see what a typical day is like.
